Floor plan checklist

12 checks before you deliver a floor plan, and 12 sizes that have to fit.

12 checks before you deliver

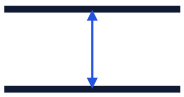

- [ ] 1 Every room has a door or an opening.
- [ ] 2 Doors swing the right way and do not hit anything.
- [ ] 3 Every room shows its windows.
- [ ] 4 Every room has a name.
- [ ] 5 Every room shows its area, measured on the inside of the walls.
- [ ] 6 The attic shows the line where the ceiling is 1.5 metres high.
- [ ] 7 The stairs have an arrow pointing up, and the stairwell is not counted as floor.
- [ ] 8 Dimensions are readable and do not overlap.
- [ ] 9 Every drawing says which floor it is.
- [ ] 10 The north arrow is on it.
- [ ] 11 Kitchen, toilet, bath, shower and meter cupboard are drawn.
- [ ] 12 All floors use the same style and scale.

12 sizes that have to fit

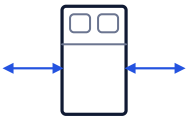

1 80+ cm

Interior door: 80 cm wide or more.

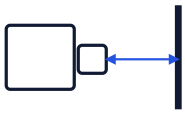

2 90 cm

Hallway: 90 cm wide.

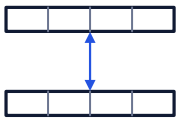

3 60 cm

Beside the bed: 60 cm to walk, on both sides.

4 75 cm

Behind a dining chair: 75 cm to the wall.

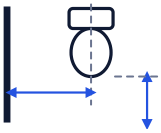

5 120 cm

Between two rows of kitchen units: 120 cm.

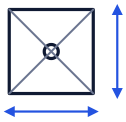

6 60 cm

Worktop and wardrobe: 60 cm deep.

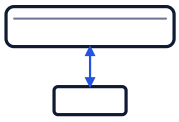

7 40 + 60 cm

Toilet: 40 cm from its centre to the side wall, and 60 cm clear in front.

8 90 x 90 cm

Shower: 90 by 90 cm.

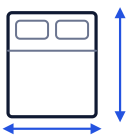

9 40 cm

Sofa to coffee table: 40 cm.

10 80 cm

Stairs: 80 cm wide.

11 160 x 200

Double bed: 160 by 200 or 180 by 200 cm. Draw the real size.

12 Clear

Nothing stands where a door swings.

These are rules of thumb for checking a floor plan, not building regulations.
